POLICY: FINANCIAL SUPPORT – FUNDING OF RESIDENTS AND FELLOWS

Scope: All residents and fellows participating in NYU Winthrop Hospital (NYUWH) specialty and subspecialty graduate medical education training programs (i.e. residencies and fellowships).

I. PURPOSE / RATIONALE

To establish an institutional policy regarding the financial support/funding of residents to include benefits and support services.

II. POLICY

Adequate financial support of residents is necessary to ensure that residents are able to fulfill the responsibilities of their educational programs. Compensation to the residents and fellows is determined by NYU Winthrop Hospital. Benefits, support services and distribution of resources for the support of education are carried out through the agreements with the appropriate institutions.

The established salary schedule for all PGY levels is reviewed by the GMEC annually.

Programs that want to increase the resident/fellow complement or obtain sponsorship for a new program must follow the procedures outlined in the GME policies (“GMEC Application for New Program”; “GMEC Application for Increase in Size of Program”)

Approved by the GMEC: 10/15/12
Reviewed and Approved: 6/6/16
