Men’s Support Group

Have you had a heart event: Heart Attack, Stent, Heart Surgery, Heart Failure? Then, this may be the group for you!

Support groups help to:

- Keep you motivated during this process
- Gain a sense of hope and empowerment
- Bridge the gap between medical and emotional needs
- Gather practical health and treatment options
- Increase positive coping mechanisms and decrease anxiety

NYU Winthrop Cardiology Associates

212 Jericho Turnpike, 2nd Floor Conference Room
